

Action required on your Vanguard 403(b) Services account

Action needed following migration to continue auto rebalance service.

You're receiving this notification because our records indicate that you are currently enrolled in the automatic rebalance service for your Vanguard 403(b) Services account. As you may be aware, your account will automatically migrate to the Ascensus recordkeeping platform over the weekend of November 10.

While much of your experience will be familiar, **you will need to re-enroll in the automatic rebalance service once your account has moved.** To do so, after logging in, select **Shortcuts**, then click **Schedule an Automatic Rebalance**.

Please note: Monthly rebalancing will no longer be available, so you may also need to select a new rebalancing frequency. If you choose not to re-enroll, your investment elections will remain in place, and you will be responsible for managing your investments moving forward.

To learn more about Ascensus and the upcoming move, check out your participant migration website: <https://nu5-transition.retsupport.com/participant/>.

We look forward to welcoming you to the Ascensus recordkeeping platform and helping you continue saving for a better future.
