²PLANSPPONSOR. 2023 Defined Contribution (DC) Survey. February 2024. The 2023 PLANSPPONSOR Defined Contribution Survey was conducted from August through October 2023, using the Qualtrics survey platform. Sponsors were asked to report specifics about their DC plan/s. The data, from approximately 2,830 respondents, represent 50 industries. Additionally, data was segmented by respondent profile to further magnify differences in asset range, industry and offerings across plan types and sizes.

³PLANADVISER. 2023 Retirement Plan Adviser Survey. March 2024. The 2023 PLANADVISER Retirement Survey from October 2023 through November 2023. The data is from 206 responses to questions about adviser insights on decision making factors regarding investment and recordkeeper selection. Defined Contribution (DC) recordkeeper evaluations were based on responses from advisers who personally evaluate and recommend providers to their qualified plan clients. The top-ranking lists reflect the percentage of respondents who, having worked with the recordkeeper, recognized them as having the "best service" in that category. Overall, advisers needed to have worked with a DC plan provider at least once to offer feedback on it. Providers needed 10 qualified plan adviser votes to have a profile listing and needed no fewer than eight votes in the service categories to have their highest rated areas of service listed.
